[REDACTED]

Dear [REDACTED]

Thank you for contacting my Santa Barbara District Office recently to express your concerns regarding contrails/military chemtrails.

Let me begin by stating that I oppose any chemical spraying of civilian populations. Although there have been reports that contrail activity is followed by sickness, I am unaware of any scientific studies showing that these two are causally related. I do appreciate you taking the time to provide me with information on contrail related internet sites and I would like to take this opportunity to direct you to the National Aeronautics and Space Administration (NASA) website located at:

<http://hyperion.gsfc.nasa.gov/AEAP/98contrails.html>

This site contains some scientific studies on contrail activity which may be of interest to you and your group.

Again, thank you for writing. As always, if I can provide you with information or assistance on any state matter, please do not hesitate to contact me or Gabriella Frederick in my Santa Barbara District Office. I look forward to working with you.

Sincerely,

Jack O'Connell
